MEMORANDUM FOR THE RECORD:

SUBJECT: Meeting with [REDACTED] DD/OSI

25X1A9a

25X1A9a

1. [REDACTED] was very interested in the progress being made on planning added facilities at the Headquarters site. However, he does not believe that OSI will be an undue burden in planning these new facilities. OSI has very few special purpose requirements, although they are involved to a degree in computer work.

2. Much of the unique effort of OSI, which might otherwise call for laboratory facilities and special equipment, is carried out through the channel of contracting with outside organizations for the special support required.

25X1A9a

3. [REDACTED] sits on the CIA personnel board and has been in the Agency many years. He is particularly aware of shifts of functions and office reorganization. He has offered to be of any assistance should the BPS choose to call upon him. He and Dr. Chamberlain, D/OSI, will be prepared to nominate an OSI/BPA when called upon to do so.
